**MONTANA ASSOCIATION OF
SCHOOL BUSINESS OFFICIALS**

MASBO BYLAWS

PURPOSE

The Montana Association of School Business Officials is dedicated to improving efficiency in the specialized field of school business management within the profession of education.

In 1968, the Montana School Boards Association sponsored the Montana Association of School Business Officials for the purpose of standardizing school accounting and providing its members and other interested school business officials and administrators with practical knowledge and new techniques in all areas of school business administration.

As the needs in business management increased, MASBO broadened its educational programs to provide in-depth study in particular topics designed to help school business officials acquire specific skills needed in their work to meet the complex challenges of modern school business management.

An annual summer seminar, the annual fall conference and regional workshops serve as vehicles for dissemination of pertinent information to MASBO members.

In 1987 MASBO adopted the concept of a voluntary program for certifying the competency of school district clerks and business managers through a prescribed course of study and in-service training. This voluntary program was endorsed and supported by the Directors of the Montana School Boards Association in March, 1988.
