

**JAVA = Coffee, NOT
for your Point of Sale**

As Presented by Tamara Blanchard, School
Services of MT and Infinite Campus Certified
Trainer and Support

Point of Sale 2.0 Highlights

- Java belongs in coffee... not on our desktop
- User friendly design
- Virtual Keyboard
- Multiple schools/application
- Easy reporting

STEPS

TERMINAL
CONFIGURATION AND
INSTALLATION

READY TO ROCK N'
ROLL!

LET'S TRY IT OUT

SSoM Training Site

Application Manager

- A new application must be created for POS 2.0 with the ENHANCED LAYOUT box checked. This signals Campus that this is a POS 2.0 application.
 - Helpful Hint: Label the application with 2.0 included in the name
 - Use the Service Layout Copy Wizard to copy and save steps!

Terminal Manager

Point of Sale>Admin>Terminals
Click **Install Terminal Enhanced**

- ▼ Open the *Campus Point of Sale Setup 2.x.x.exe* file on the terminal.

Now you are in the admin screen.

*Important note - Change your Admin PIN
BEFORE you leave this screen.

You will need to have your Campus URL for the installation process

Cashiers – Individual Serve vs. Continuous Serve

The screenshot displays the 'Infinite Campus - Point of Sale' interface. At the top, the 'Mode' section has two buttons: 'General' and 'Continuous'. The 'Continuous' button is highlighted with a blue background and a red arrow pointing to it. To the left of these buttons is a yellow circle containing a black pin icon. Below the mode buttons, there are several product buttons: 'Lunch 6-12' (green), 'Milk' (white), 'Banana' (yellow), 'Burger Basket' (light blue), 'Chicken Basket' (light blue), 'Cookies' (purple), 'Milk' (grey with a pin icon and yellow circle), 'Lunch 6-12' (grey with a pin icon and yellow circle), and 'Apple' (red). A patron card for 'Rosie Castell' is shown, with 'Served' status, a photo, and a price of '\$0.75'. The total at the bottom is '\$2.75' with a red 'X' button.
